Welcome to the Young and Emerging Producer sheep 101 course! This course is designed with beginning producers in mind and the goal is to give a broad overview of resources, information, and tools within the U.S. sheep industry to get you started!

You can expect this course to be:

- Flexible:** Progress at your own pace with easy-to-follow modules.
- Interactive:** Engage with videos, readings, and activities to deepen your understanding of the U.S. sheep industry.
- Supportive:** As we develop this course we will build a supportive community where you can learn and connect from others within the industry.

This course and project is run by the Young and Emerging Entrepreneurs Committee (YEE) and current funding is in thanks to the [National Sheep Improvement Center](#). YEE is a steering committee through the Production, Research, and Education Council through the American Sheep Industry Association. Currently the group is composed of the following members

Contact	Phone	Email
Cody Chambliss (SD)- YEE Chair	605-730-1837	elmcreeklabradores@hotmail.com
Brady Rose Evans (TX)- YEE Co-Chair	806-790-1710	defaidlivestock@gmail.com
Ryan Boner (WY)	307-277-3782	cowboy.ethics@yahoo.com
Jeff Clark (SD)	202-881-2348	jclark@blackhillhandtohands.com

Young & Emerging
ENTREPRENEURS
EMPOWERING THE FUTURE
THROUGH EDUCATION & INNOVATION

The Young & Emerging Entrepreneur (YEE) group is to inspire entrepreneurial spirit in the sheep industry through discussions about starter flocks, lamb production, wool uses, and innovations that will help sheep and wool producers become more profitable.

The first task in this worksheet will be to identify your local state contacts and resources, which can be found on the American Sheep Industry [State Contacts](#) page. Webpage resources will be embedded into lessons however, you can click on green hyper-linked words to open pages in a new tab.

As you progress through the modules and lessons, hover over [blue-highlighted](#) words to see their definitions. These terms are essential for understanding sheep industry terminology. At the end of each module, you'll find a practice set to help reinforce your knowledge, master key terms, and test your skills.
